

### E Glass Assembled Roving for SMC

E-Glass Assembled Roving for SMC is compatible with reinforced unsaturated polyester resin, vinyl ester resin and so on. It is mainly used to produce automotive parts, doors, chairs, bathtubs, SMC water tanks and sports instruments etc.

#### Product Characteristics:

1. Good choppability and good gathering.
2. Good dispersion and lay-down.
3. Low static, excellent mechanical properties.
4. Excellent mold flowability.

#### Product Parameters:

Product code	EW530	EW535	EW511
Filament Diameter( $\mu$ m)	13	13	14
Linear density(Tex)	2400,4800	2400,4800	2400,4800
Moisture content(%)	$\leq 0.10$	$\leq 0.10$	$\leq 0.10$
LOI (%)	1.20 $\pm$ 0.15	1.20 $\pm$ 0.15	1.20 $\pm$ 0.15
Roll weight(kg)	18 $\pm$ 0.5	18 $\pm$ 0.5	18 $\pm$ 0.5
